

# Nutri Health

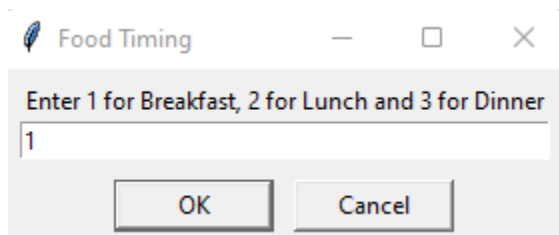

## 1. Home page

The screenshot shows a window titled "Nutri Health" with a green background. It contains a form titled "Nutritiuos Food Suggestion" (note the typo). The form has four input fields: "Age" with value 24, "Weight(in kg)" with value 68, "Height(in cm)" with value 168, and "Veg(0)/NonVeg(1)" with value 1. Below the input fields are four buttons: "Weight Loss", "Weight Gain", "Healthy", and "Quit". The "Weight Gain" button is highlighted, indicating it has been selected.

I have selected the diet for weight gain

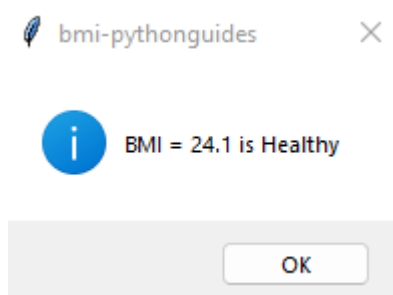

## 2. Food choice

The screenshot shows a dialog box titled "Food Timing". It contains a text prompt: "Enter 1 for Breakfast, 2 for Lunch and 3 for Dinner". Below the prompt is an input field containing the number "1". At the bottom of the dialog are two buttons: "OK" and "Cancel".

Food suggestion for breakfast

## 3. BMI

The screenshot shows a window titled "bmi-pythonguides". It contains a message: "BMI = 24.1 is Healthy". Below the message is an "OK" button.
